

*In recent times natural disasters and social conflicts have severely affected cultural heritage in different parts of the world, the fire of the National Museum of Brazil, Notre Dame in Paris, recent floods in Venice remind us that climate changes are present.*

*This workshop is to sensitize and introduce the essentials of risk management in cultural heritage and how to apply it at your institution to help you design your own emergency plan according to your needs, resources and priorities.*

*An introduction to the challenges and risks of digital preservation of audio visual heritage, preserving Intangible Cultural Heritage through audio visual media, the role of audio visual media in emergencies.*

*Aimed to professionals working with Cultural Heritage at Museums, Archives, Libraries, Archaeological, Monuments, Historic centers, Art galleries, etc.*
